

Wasatch School District
Use of student likenesses and work product

Dear parents,

Wasatch School District is updating their student directory information to include a statement that student images in photos and video may be used for academic or publicity purposes in school or district publications, web sites, and social media outlets, as well as in local newspapers and in TV and radio news outlets. Parents who prefer that their students' images not be used in this manner need to sign and return this document to the principal by December 13, 2013.

Parents who have already chosen the "opt out" choice during registration do not need to resubmit that request. That option will remain in effect for the remainder of this year unless it is rescinded with a letter to the principal.

For parents who wish to allow the district to use electronic student images,
no action is necessary.

Directory Information

Wasatch County schools may typically publish the names and photos of students in yearbooks (if applicable), and as roster information (weight and height) of members of certain athletic teams.

In addition, photos and videos often are taken of students participating in a wide variety of school-related activities and performances. Some of these images, as well as descriptions of school-related activities and performances, or duplications of outstanding student work, may be used for academic or publicity purposes in school and district publications, web sites, and social media outlets (e.g., Twitter, Facebook, etc.) They may also be used in local newspapers and in TV and radio news outlets. Some schools also use on-line streaming sites to display student work.

If you **DO NOT** want your child's photos, name, likeness or work to appear in these media, please sign below and return to your child's principal before December 13, 2013.

I DO NOT want my child's photos, name, likeness or work released for school/district academic or publicity purposes in the 2013-2014 school year.
