

# Wasatch County School District Accidental Damage Policy

## Device protection and coverage

WCSD will provide an *Accidental Damage Policy* on student Devices. The insurance policy will cover only damage of an accidental nature and will cover the cost of repairing or replacing a damaged Device.

The *Accidental Damage Policy* does not cover malicious damage caused by abuse or intention. This type of damage would be items of modification, vandalism, and neglect. The school district has gone to great lengths to provide protective cases to facilitate the good working order of student devices. Failure to use cases and adequately protect devices will be considered in the coverage of the student device.

Third-party insurance is available to reduce the cost/liability in the event of loss, vandalism, or intentional damage not covered by WCSD *Accidental Damage Policy*. The link for insurance can be found at <http://www.wasatch.edu/digital>.

The parent/guardian shall immediately report a lost or stolen Device to the police, and provide a copy of the police report to the District.

The parent/guardian shall be responsible to pay the school district for any costs which are not covered by the *Accidental Damage Policy*.

Below is a listing of the student device costs which may be incurred on lost or damaged items for each:
