Generated by Brooke Wardle on Friday, June 18, 2021

**A. Study Session - 5:00pm****Members present**

Cory Holmes, Tom Hansen, Tyler Bluth, Marianne B Allen, Kimberly Dickerson  
 Superintendent Sweat, Business Administrator Keith Johansen  
 Discussion, Information: 1. Davis Demographics  
 Welcome by Superintendent Sweat

Guest presenters from Davis Demographics, Lorne Woods and Georgia Leonard.

Presentation reviewing student growth and the recent housing development in Wasatch County.

1. Overall, the student population for WCSD is projected to increase 1800 resident students in ten years, a net increase of 26%.
2. Currently there are 5600 active or planned units in WCSD with nearly 8,000 that could come online after ten years.
3. Gaining 410-480 children in overall births each year.
4. Elementary population is increasing by 825 students through the next 5 years.
5. The Middle School population is projected to increase 225 students by year five of these projections.
6. The High School population could experience growth of 560 more high school students within 5 yrs.

**Student Yield Factors**

Attendance Matrix tells us where students are enrolled and where they live. WLA has 1,564 students in the program.

We look at 4 yrs student Data. Look at impact areas with non-residential housing. Track the percentage gain or loss for each grade level as students progress through the grades. Looks at the next 10 yrs.

Georgia studies development specifically - Over 190+ developments, 148 are active or planned. Over 16,000 units will be built in the next 10 years. 62% single family detached 35% single family attached, 3% apartments. Online and in-person interview to collect the data. Forecast for housing continues to change.

JR Smith Elementary is receiving 67% of the development in the county.

- a. 79 active or planned units
- b. 3745 units in forecasts
- c. could yield approx. 1082 students
- d. 64% are single family detached

Old Mill will receive 14% of the growth.

- a. 31 active or planned projects
- b. 763 units in forecast
- c. could yield approx. 710 students
- d. 56% are single family detached

Midway Elementary 13% of development, 340 students.

- a. 30 active or planned units
- b. 708 units in forecast
- c. could yield approx. 340 students
- d. 67% are single family detached

Heber Valley Elementary 1% of development

- a. 4 active or planned projects
- b. 85 units in forecast
- c. could yield approx. 83 students
- d. 69% are single family detached

Daniels Canyon Elementary 5% of development

- a. 5 active or planned units
- b. 262 units in forecast
- c. could yield approx. 173 students
- d. 33% are single family detached

These numbers may be outdated since the data was collected in December. K-12 Numbers. HVE and DCE are lower impact schools. A lot of the developments are changing density, Davis Demographics is watching the density.

Housing types may hold different densities. Town homes have a different yield than a single family home.

The district will want to pay attention to annexations in the area.

Data Verification Process

District wide 10 yr projections-Total Enrollment Data sheet

Look at trend not numbers. Trend is increasing.

Reason it plateaus ... only dealing with what's on the books

Birth factors have averaged out. Built in to this plan is about 5yrs of growth

Is elevation continuing?

We are projecting growth.

Elementary peaks at 5,6,7yrs out.

Middle school peaks at 8yrs out.

WHS peaks at 10yrs out.

Student populations are relative to housing prices in our area.

Davis Demographics will continue to monitor growth and report development through the dashboard and future meetings.

### ***Discussion, Information: 2. Round Table***

Guest Dr. Ray Reutzel

Received highest level of reward in Literacy in 2019

Eric Campbell - We are so grateful for his help in our district to help us boost our literacy scores district wide.

Superintendent Sweat- Dr Reutzel is the best of the best. We are so lucky to have him with us tonight.

Eric Campbell-Over the last 4-5 yrs we have not been over the the 70% mark with our grade level reading K-2 kids and that is a concern for us. Our goal is over 90% - Acadience reading is only one assessment though. We need to apply those foundational reading skills. The best assessment we have for that right now is RISE. We are just below in our scores but its not good enough. Setting the bar at 90% proficiency is our goal. Dr Reutzel will help us with our plan.

Dr. Reutzel- Utah is in a good place in science and reading but we want to make Utah better. Using an evidenced based way to teach children to read. Most colleges teach teachers based on fads not on science. The science of reading is based on cognitive science not of social cultural science. You have to have the skills to read alone to make it through college, kids should first to learn informational text, not just story text. We should be held responsible to teach the science of reading, and we will see our scores go up. We will have access to a whole group of excellent reading specialists that we can collaborate with and bounce ideas off of. We have good strong leaders to guide our teachers down the right path and nip this right away. If kids aren't reading at grade level by 3rd grade it starts a whole other list of issues - 12%chance of getting them on grade level if its not done by 3rd grade. We have limited time to get kids reading at grade level. We want to take the time to teach teachers and get it done right.

Garrick- asking for 3 days for teachers to build our knowledge base.

State ESSER Funds will support the PD days for teacher training.

Board President Hansen -A few years ago the board made the changed from half day Kindergarten to full day.

Eric Campbell- LETTERS and Amplify are tools to help us get to the reading goals we want to achieve in our district.

Dr. Reutzel- Programs don't teach kids to read, teachers do. You have to invest in teachers, they are the ones that will be teaching our kids.

### ***B. Board of Education Meeting***

**Meeting called to order at 6:34 pm**

### ***C. Community Comment - <http://bit.ly/WCSDBOE17Jun21>***

Discussion, Information: 1. Public comments will be accepted for approximately twenty (20) minutes. Each speaker will be allowed a maximum of two (2) minutes. LINK-<http://bit.ly/WCSDBOE17Jun21>

Matt Sproul- 530 E 400 S Heber Ut

Just wanted to say thank you. The teachers feel so supported. Would never go to another district. District is well run and we appreciate the compensation we receive. Thank you.

Drew Camps Wofard- 57 E Rainbow Way Midway

Wants to say thanks for your dedication to the teachers. First year she heard someone say take care of the teachers so the teachers can take care of the kids. Wasatch takes care of us so well so we are able to take care of our students. Student government retreat the kids talked about loved and appreciated they feel. They also feel lucky to be in the district. They are so grateful for the normalization and the high school experience they have all wanted. Thank you.

Shawn Kelly- 135 S 100 W Midway

Director of Operations and HR for the District and wants to go on the record for a few reasons. Keith Johansen understands the budget as good as anyone in the state if not the country. He is so good at what he does. Our budget is 123,000,413. He worries about the \$13 as much as the 123 million. We have discussions, we have pushback and then more discussions. When there are things I feel like the district needs to operate Keith knows where every penny is. The staff knows where every penny is. We are not wasting money, we are using money wisely to run the best district in the state. I thank you, teachers thank you, support staff thanks you. Thank you board, Superintendent, and Keith. Thank you.

No other comments online or from other board members.

**Pledge of Allegiance-** Tyler Bluth

Tom Hansen- Welcome and special thanks to all those helping with the meeting. A lot of works goes in to a day like this. Thank you!

#### ***D. Celebrations/Information***

Information: 1. Honor the families of recently lost community members, students and former Wasatch graduates.

Moment of Silence

Emma Call

Payton Caldwell

Amy Nelson

Michael Rivera

Brooklyn Schneider

Board Member Marianne B Allen-Thank you for all the support given to my own children and to each and everyone of these kids friends and family members. Someone has reached out to all of them and shown love and support. Shows we have some hardworking people and it's not just a job. Personally I would like to say thank you.

Board President Hansen- It is timely that we had the budget meeting tonight as all the things that are going on in the district. It takes a lot to run this district to produce quality education for our children. People that are part of our community and part of our families we spend quality time with them everyday. Future is unknown and all we can do is be prepared as possible. Thanks to all the people who have helped with these families and other members of the community. Everything we do is for the students. The District is a community in itself.

*Guest, Representative Mike Kohler, Utah House of Representatives*

So happy for COVID being over and being able to meet together face to face.

A recent COVID bill for school districts passed that blocks the requirement of wearing masks with two exceptions;

1. health dept declares and emergency
2. county council supports it

Vaccinations are going to be more available for the younger kids.

What about testing? Test to play etc.?

Testing may be use locally-depending on case load. Nothing in the bills that specifies testing.

No part of the legislative meeting that he remembers.

*Funding-*

From the government we will receive 1.5-1.8 billion for schools, infrastructure, roads, rural road updates, Wasatch front roads.

Legislature supports schools and the state is in good financial situation. At this time the money has not be decided how it will be used.

Superintendent Sweat - There is great connection between schools and the legislature, a lot of cooperation with us and also support. Mike Kohler is great friend to Wasatch.

Board President Hansen- A lot of our elementary students suffered through the pandemic. Can some of the money be used to help catch those kids up? Maybe money for school programs? Math, reading etc maybe extra activities.

Representative Kohler- Not sure where the money will go but in time we will hopefully be able to help those that are behind. You have friends in the legislature that know some of the things you need. Seems reasonable to me.

MIDA- a way to help get Jordanelle started. Military hotel has taken 15yrs longer than it should. We will get 25%. within 5-yrs there should be 4 hotels (1 military and 3 others) within 10 yrs will be worth all of Jordanelle put together. Will be worth billions of dollars. Superintendent will have conversation with their management and hope will become an asset to us and help us with the bond.

Marianne B Allen- thanks for all the work you do Mike.

Comments:

Dave Mcnaughten- 2777 S Daniels Rd Heber

Going to the funerals was amazing and everything was tied to schools. Continue to give opportunity to our kids. I believe school programs make a huge difference in kids lives. Thanks for allowing us to do the things we are allowed to do with the money.

Kimberly Dickerson- met Caldwell family through PTA, involved in school community, have volunteered in so many ways.

Fall Break Oct 7

PD Day Oct 10

Christmas Break Dec 16

PD Day Jan 3rd

Spring Break March 10th

End before Memorial Day

Board Member Dickerson- How can we better share the DRAFT Calendar for review?

Kirsta- emails to parents and staff and social media, and direct communication

Board Member Allen - Kirsta please report back during the Aug. meeting on what the public has to say about this calendar. We really need to know what teachers and parents are saying. Can we do a form or survey?

Superintendent Sweat- This calendar works well with students and staff academically. The calendar does not always stay the same, it is very fluid. Comments should be emailed to Mr. Kelly, board members can request that any comments are emailed.

Tod Johnson- As a principal I loved where the breaks were, there is a very concentrated period of learning. It is difficult to bring students back for summative assessments. This is the best academic calendar.

Motion to approve draft for comment by Tyler Bluth, second by Marianne B Allen.

Final Resolution: Motion Carries

Yea: Cory Holmes, Tom Hansen, Tyler Bluth, Marianne B Allen, Kimberly Dickerson

**Action: 14. Approve RFP Selection for Website Redesign - Kirsta Albert**

Superintendent Sweat- Thanks to Kirsta for all her work in this website redesign. Through the RFP process we considered thinking a little outside the box. We concluded as a committee that we may not want to use a third party for a template, other districts have tried to do it in house and we would like to do that as well. We would like to propose to the board that we build the website in-house.

Board Member Allen-one perk of having a third party is a better timeline of getting it done? Do we feel like we have the support and what is the timeline?

Kirsta- I am able to help with the rebuild. I am able to help with content development and the site map. The rebuild can be done by January. We need a new platform. I feel comfortable that I will be able to support the rebuild and that it will be timely.

Board Member Bluth - I hope that the site will run more smoothly. I have total confidence in our team.

Motion by Tom Hansen, second by Kimberly Dickerson.

Final Resolution: Motion Carries

Yea: Cory Holmes, Tom Hansen, Tyler Bluth, Marianne B Allen, Kimberly Dickerson

**Action: 15. Approve RFP Selection for Master Facilities Plan - Kirsta Albert**

The Master Facilities plan will help demonstrate the capacity of our buildings and how they are being used currently and for future uses.

Board President Hansen -

The RFP process provided scoring results. The top two architects for consideration are GSBS and VCBO. GSBS has the capacity to support the efforts.

Board Member, Marianne B Allen- GSBS had more benefits and offerings to support us.

Superintendent Sweat- I would ask that the board give permission to administration to work with GSBS. There will be a final interview for cost and final consideration.

Recommendation to give permission to administration to work with GSBS, under the condition that the board is included in the cost of the final proposal.

Motion to approve permission by Tyler Bluth, second by Cory Holmes.

Final Resolution: Motion Carries

Yea: Cory Holmes, Tom Hansen, Tyler Bluth, Marianne B Allen, Kimberly Dickerson
