

Ideas for activities/lessons:

- Holiday- teach the students how the holiday is celebrated in different cultures. Can include literature, games, crafts or food.
- Favorite Books- read and discuss your favorite childhood book. Create a class book that has the same pattern as the book, have a literature discussion, or have the students act out certain scenes.
- Art- select one of your favorite artists to introduce to the students. Teach about the artist's life and do an art project using the same technique as the artist.
- Cultural knowledge- teach the students about another country or culture. You can show pictures and share artifacts from that culture. Teach the students a game played by children in that country. Teach a folk dance from the culture.
- Comprehension- all students can work on comprehension. Pick a skill and a book that will help you review it. After you read the story practice the comprehension skill in a fun way. This can be done using art, drama, or writing.
- Craft- help students create a craft.
- Career- students love to hear about all the careers available. Teach the students about your job and responsibilities.
- College readiness- Talk with students about the importance of going to college. Teach them some of the history of your favorite university. Set goals for the future.
- Drama- play a game using drama techniques, teach students about the theater.
- Science- students love to see and participate in science experiments.
- Hobbies- teach about your hobby, expose students to what is involved and have them practice it, if possible.
